linkedin.com/in/imohammedjameel

PROFILE

Jr. dev ops engineer with a strong foundation in Linux Administration, Scripting(Bash/Python), and Cloud Infrastructure (AWS/Azure). Proven experience in designing and managing CI/CD pipelines using GitLab CI and TeamCity, alongside Infrastructure as Code (Terraform). Background in IT Infrastructure and System Administration ensures a deep understanding of networking, security, and system integrity. Eager to leverage automation skills to streamline deployment processes and ensure high availability for organizational systems.

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Software Engineering Trainee & Internship

Digilians 

Dec 2025 – Present
Egyptian Military
Academy

- Managed Cloud Infrastructure resources using AWS and analytical tools to implement automated software deployment strategies.
- Designed and implemented CI/CD pipelines using GitLab CI and TeamCity, reducing software release time by 40%.
- Provisioned and managed cloud infrastructure using Terraform and Helm to automate deployment cycles.
- Deployed containerized applications using Docker and Kubernetes, ensuring scalability and efficiency.
- Collaborated with development teams to automate workflows, ensuring alignment with DevOps best practices and optimizing CI/CD efficiency.

IT Specialist

Linah Group

Sep 2025 – Present
Dokki, Egypt

- Installed, troubleshot, and configured computers, printers, and network equipment to support daily operations.
- Managed and maintained LAN and Wi-Fi networks.
- Provided technical support and resolved daily IT issues for staff.
- Applied security updates and ensured system protection.
- Created and managed user accounts for email and internal systems.
- Monitored hardware and server performance.
- Coordinated with vendors and external technicians when needed.
- Documented technical tasks and completed troubleshooting logs regularly

Technical Support Specialist

Fujitsu - FSIT Services

Jan 2025 – Sep 2025
Sheraton, Egypt

- Provided technical support for desktops, laptops, printers, scanners, and Qmatic systems.
- Troubleshoot Windows 10/11 and Microsoft Office (Outlook, Excel, Word), and performed software upgrades and routine maintenance.
- Troubleshoot complex networking issues, including TCP/IP, DNS, and firewalls, to minimize downtime.
- Ensured the stability and integrity of in-house information systems and optimized operating systems for maximum performance.
- Conducted backups and recovery using AOMEI and other Hiren's Boot tools.
- Supported Active Directory user management (accounts, password resets).
- Provided remote support via AnyDesk and TeamViewer.
- Collaborated with IT teams to ensure service uptime.
- Applied security best practices and access controls to protect company data and infrastructure.
- Managed user accounts and security policies via Active Directory and Microsoft 365, ensuring data protection.
- Automated routine maintenance tasks using Bash scripts to reduce manual intervention.
- Reduced system downtime by 20% through proactive monitoring.

- 100+ technical tickets daily, maintaining a 99% system uptime.

EDUCATION

Bachelor's Degree in Computer Science

Thebes Academy

GPA: 3.04 from 4.0

Sep 2019 – May 2023

Maadi

COURSES

CCNA

Networking fundamentals, routing & switching, TCP/IP

MCSA: Windows Server Administration

Active Directory, Server Administration, Group Policy

The Complete 2022 Flutter & Dart Development Course [↗](#)

Udemy

Cross-platform mobile development using Dart & Flutter

Flutter Workshop [↗](#)

Orange Digital Center

Hands-on Flutter project building

SKILLS

Technical Skills:

- **Scripting & Programming:** Python, Bash Shell Scripting.
- **Cloud & Virtualization:** AWS (EC2, S3, VPC), Microsoft Azure, Hyper-V(Virtual machines), Microsoft 365.
- **Containerization & Orchestration:** Docker, Kubernetes.
- **CI/CD Tools:** GitLab CI, TeamCity, Jenkins.
- **Infrastructure as Code (IaC):** Terraform, Helm Charts.
- **Operating Systems:** Linux Administration (RHEL, CentOS, Ubuntu), Windows Server.
- **Networking:** TCP/IP, DNS, Firewalls, Load Balancers, VLANs, Encryption.
- **Soft Skills:** Analytical Skills, Problem-solving, Troubleshooting, Communication, Collaboration.

Other:

Problem-solving, Communication, Customer Service, AnyDesk, TeamViewer, Willingness to Learn, Linux - Bash Scripting, CI/CD, Troubleshooting, Microsoft 365, Microsoft Azure.

Collaboration skills

Problem-solving skills

VOLUNTEER EXPERIENCE

GDG on Campus - Thebes Academy

Chapter Leader

Jul 2022 – Jul 2023

- Mentored team members and utilized strong communication skills to direct all chapter activities, successfully orchestrating a portfolio of events, workshops, and hackathons that engaged a significant number of participants.
- Initiated and nurtured relationships with key industry partners, securing collaborative ventures and expanding the chapter's external network.
- Promoted a culture of knowledge sharing through technical workshops
- Led a chapter of **500+** members and organized events for **5000+** attendees

GDG on Campus - Thebes Academy

Technical Team Leader

Jul 2021 – Jul 2022

- Oversaw and resolved all technical aspects of online and offline events, including presentation support and live broadcasting using StreamYard, guaranteeing high-quality delivery.
- Contributed significantly to the development and execution of a strategic plan that boosted the chapter's presence both within the academy and across social media platforms.
